PROJECTS

RECHECK: Implemented a centralized system that optimizes the workflow for research submission, review, and approval within ethics committees.

ElderlyCare: Created an Elderly Care platform that allows families and caregivers to communicate and share important information, monitor the health and well-being of their loved ones remotely, and manage appointments and medication schedules effectively.

InsightAi:
Developed a machine learning system that predicts future business trends and analyzes customer purchasing behavior, classifying individuals into distinct market segments for better decision-making.
